## **NUTRITION WEEK 2018**

National Nutrition Week is celebrated every year from 1st September to the 7th September to make the people aware about the importance of their health and well-being. The objective of the National Nutrition Week is to enhance the nutritional practice awareness among our community. According to the reports it is noted that inappropriate dietary habits and less physical activity are the main reasons of weight gain and obesity among the adolescents.

Calorie value of the different meals, we usually have and the amount of the calories we burn during different kinds of physical activities were shared. Through this, one can make out their health status by making a comparison between calorie intake and calorie consumption. We also introduced the students to eating disorders which arise due to faulty body image. Along with this, Home science students also prepared different kinds of salad dressing by using different knives and cutters. Russian salad, Mexican salad, Sprouts salad and Potato salad were presented by them in an attractive manner.
